# Subtracting Decimals

PS 1-13

**County Fair** The largest tomato at a county fair weighed 7.29 lb. The largest pumpkin weighed 572.14 lb. The grand champion hog weighed in at 321.09 lb.

1. How much more did the largest pumpkin weigh than the grand champion hog? \_\_\_\_\_
2. How much more did the largest pumpkin weigh than the largest tomato? \_\_\_\_\_
3. How much more did the grand champion hog weigh than the largest tomato? \_\_\_\_\_

At the county fair, tickets for the rides can be bought in sheets of 40 for \$10.00, sheets of 100 for \$20.00, or each ticket for \$0.50.

4. Craig came to the fair with \$50.00. He bought a sheet of 100 tickets and bought dinner for \$7.81. How much money does Craig have left? \_\_\_\_\_
5. Tyrell came to the fair with \$25.00. He spent \$13.00 trying to win a prize, and then bought a necklace for \$8.69. How much money does Tyrell have left? \_\_\_\_\_
6. **Writing in Math** Explain why you might need to add zeros to the end of a decimal in order to subtract.
