

HOMEWORK & CLASS NOTES

Geometry
Algebra 2

Ms. Barut

If we had homework
last night...

- ✓ Make sure when you come in, the FIRST thing you do is take out your HW assignment.
- ✓ If the HW was in the textbook, make sure that your book is open to the correct page **EVEN IF YOU DON'T HAVE YOUR HW ASSIGNMENT DONE!**

If we had homework
last night...

- ✓ You will NOT get credit for your HW if you are not correcting your answers in class!

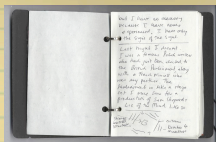

- ✓ All HW must be done in PENCIL!

If we had homework
last night...

- ✓ Make corrections where necessary and fill in the correct answers--your HW should be "perfect" when you are through.
- ✓ Ask questions when you don't understand or aren't sure if your answer is correct--otherwise I'll believe that you understand **EVERYTHING.**

When taking class notes...

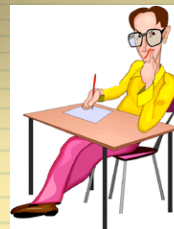

- ✓ Put today's date at the top of your notes--this is how we will organize.

- ✓ Take good notes--copy down all the vocabulary and definitions.

When taking class notes...

- ✓ Make sure you are copying all of the EXAMPLES with the work shown--EVEN IF YOU ALREADY KNOW HOW TO DO THE MATH!

When taking class notes...

- ✓ Use a highlighter (colored pens/ pencils, markers, crayons) to highlight or underline vocabulary, formulas, steps, procedures, etc.

When taking class notes...

- ✓ Be as neat and organized as possible! This is key to being successful in any math class!
